## Current research position

- 2024-today **CNRS Researcher**  
Univ. Grenoble Alpes, CNRS, LIPhy, Grenoble, France  
*[Nanoconfined fluids, soft matter, and molecular simulations](#)*
  - 2025 : co-investigator of the ANR project MIAM-CO2 (Elise Lorenceau, LIPhy),
  - 2025 : lead PI of the ANR project MicroSep,
  - Since January 2024 : in charge of organizing LIPhy's internal seminars,
  - Since April 2024 : co-supervision of Pablo Grisanti, PhD candidate.
- 2023-2025 **MSCA Fellow**  
Univ. Grenoble Alpes, CNRS, LIPhy, Grenoble, France  
*[Hybrid nanoporous materials for fluid mixture separation](#)*  
Group leader : CNRS DR Benoit Coasne

## Past research experiences

- 2021-2023 Postdoctoral Researcher  
Institute for Computational Physics, Universität Stuttgart, **Stuttgart, Allemagne**  
*[NMR properties of water at the interfaces of porous salt crusts](#)*  
*[NMR dynamics of hydrophilic gels and polymers](#)*  
Group leaders : Pr. Christian Holm and Assistant Pr. Alexander Schlaich
- 2019-2021 Postdoctoral Researcher  
Queen Mary University of London, **Londres, Royaume-Uni**  
*[Adsorption of two-dimensional nanoparticles at fluid interfaces](#)*  
*[Viscosity of graphene nanoparticle suspensions under shear](#)*  
Group leader : Pr. Lorenzo Botto
- 2016-2019 Postdoctoral Researcher (FONDECYT)  
Universidad Adolfo Ibáñez, **Viña del Mar, Chili**  
*[Bio-inspired water capture systems by desert plants](#)*  
*[Modeling microtube dynamics in plant cells](#)*  
Group leaders : Pr. Jacques Dumais
- 2012-2015 Doctorant  
Institut Lumière Matière, Université Claude Bernard Lyon 1, **Lyon, France**  
*[Fluidic transport in bio-inspired nano-channels](#)*  
*[Charge fluctuations and reversible ion adsorption in synthetic nanopores](#)*  
Supervisors : Pr. Lydéric Bocquet, CNRS DR Christophe Ybert and Pr. Laurent Joly
